Any major alloy wheel refurbishment required.
2-3yrs	Maximum of 3 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass.	Maximum of 4 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 panel that requires minor bodywork repair.	More than 4 areas/panels requiring SMART repairs. More than 1 panel requiring minor bodywork repair. Any major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.
3-4yrs	Maximum of 4 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass.	Maximum of 5 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 panel that requires minor bodywork repair.	More than 5 areas/panels requiring SMART repairs. More than 1 panel requiring minor bodywork repair. Any major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.
4-5yrs	Maximum of 4 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 minor bodyshop repair to an individual area/panel.	Maximum of 5 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 2-3 panels that require minor bodywork repair. 1 major bodywork repair required.	More than 5 areas/panels requiring SMART repairs. More than 3 panels requiring minor bodywork repair. More than 1 major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.
5-6yrs	Maximum of 5 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 minor bodyshop repair to an individual panel or bumper.	Maximum of 6 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 2-3 panels that require minor bodywork repair. 1 major bodywork repair required.	More than 6 areas/panels requiring SMART repairs. More than 3 panels requiring minor bodywork repair. More than 1 major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.
6-7yrs	Maximum of 6 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 minor bodyshop repair to an individual panel or bumper.	Maximum of 7 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 2-3 panels that require minor bodywork repair. 1 major bodywork repair required.	More than 7 areas/panels requiring SMART repairs. More than 3 panels requiring minor bodywork repair. More than 1 major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.
7-8yrs	Maximum of 6 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 minor bodyshop repair to an individual panel or bumper.	Maximum of 7 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 2-3 panels that require minor bodywork repair. 1 major bodywork repair required.	More than 7 areas/panels requiring SMART repairs. More than 3 panels requiring minor bodywork repair. More than 1 major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.
8-9yrs	Maximum of 7 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 minor bodyshop repair to an individual area/panel.	Maximum of 8 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 2-5 panels that require minor bodywork repair. 1 major bodywork repair required.	More than 8 areas/panels requiring SMART repairs. More than 5 panels requiring minor bodywork repair. More than 1 major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.
9-10yrs	Maximum of 7 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 minor bodyshop repair to an individual area/panel.	Maximum of 8 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 2-5 panels that require minor bodywork repair. 1 major bodywork repair required.	More than 8 areas/panels requiring SMART repairs. More than 5 panels requiring minor bodywork repair. More than 1 major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.
10+yrs	Maximum of 7 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 1 minor bodyshop repair to an individual area/panel.	Maximum of 8 areas/panels requiring SMART repairs to any part of the vehicle including alloy wheel/glass. 2-5 panels that require minor bodywork repair. 1 major bodywork repair required.	More than 8 areas/panels requiring SMART repairs. More than 5 panels requiring minor bodywork repair. More than 1 major bodywork repair required. Any poor previous repairs recorded. Any major alloy wheel refurbishment required.

All Ages (interior)	No visible damage to interior trim, carpets not stained beyond repair.	Small areas of damage requiring minor cosmetic repair.	Damage beyond reasonable repair.
All Ages (loose items)	V5 Present, service book fully stamped, no mileage discrepency, all loose items present, including spare keys.	V5 Present, service book partially stamped, no mileage discrepency, spare key present, may have minor, low-value loose items missing.	V5 missing, service book partially or not stamped, mileage discrepency, key missing, other items may be missing.
All Ages (Tyres)	Maximum of 1 tyre requires replacing	2-4 tyres requiring replacement.	N/A

Any car deemed beyond reasonable economic repair to get it to a retailable standard is not valued by cap hpi Black Book and is therefore not covered by these definitions.
If vehicle has both Average "All Ages" criteria (i.e. interior, loose items & tyres) AND Average exterior criteria, vehicle becomes Below
